

Manufacturer Safety Data Sheet

The DG500 Cartridge DispensGun is a convenient alternative to scooping out printing paste from a jar. Charge your printer cleanly and efficiently with EFD's easy-to-use, air-powered DG500 Cartridge DispensGun.

Key Features

- Trigger actuated
- Air-powered
- Adjustable for different hand sizes

How it Works

- User squeezes trigger to dispense a controlled bead of solder paste onto the stencil from a pre-filled cartridge

Benefits

- Cartridge keeps the paste and operator protected
- Fast
- Efficient
- Clean
